

CLASSES

▪ **Introduction to Pistol-Craft – 4 Hours \$125**

This course is intended for the individual with little or no firearms experience. There is not a great deal of range time during this class which is designed to set the groundwork for safe pistol handling. Students will learn all the basics from handgun cleaning to definitions of terms to understanding the difference between a revolver and a semi-automatic. This is a great opportunity for a beginner to ask questions, get answers and learn in a non-threatening environment. There will be some time on the range to shoot a revolver and semi-automatic firearm after you have learned about it in class. However, you will not be forced to shoot if you are not ready! The successful completion of this course will give you the basic foundation to advance through all the other classes that we offer.

Course Requirements: A handgun (rental handguns are available on site), 50 rounds of ammunition, and eye and ear protection

▪ **Intermediate Pistol-Craft – 4 Hours \$150**

This course will help improve your marksmanship. After a brief safety review, the balance of this class is spent on the range. If you need to become a better shot, this is the right class for you. This is NOT an “Introduction to Handguns” class. You must know how to load, unload, shoot your firearm and be comfortable with your firearm or firearms in general. You may have just taken the above described **Introduction to Pistol-Craft** and feel that you need more practice with an instructor before you are comfortable handling the weapon by yourself. There are many reasons to take this class such as improving your stance, sight picture, grip, breathing, trigger control, shot placement and grouping. You will be a better pistol marksman after taking this class and your small groupings will prove it!

Course Requirements: A handgun (rental handguns are available on site), at least 1 spare magazine or speed loader, a minimum of 200 rounds of ammunition, and eye and ear protection

▪ **Pistol-Craft and Personal Protection Principles – 6 Hours \$175**

Personal Protection Principles includes safety, personal security, awareness, assault recognition, the physiology of stress when faced with a deadly encounter and how to mitigate its effects. This course covers the basics of the law on the use of self defense, conflict avoidance, Law Enforcement encounters, combat proven methods of handgun self defense, comprehensive instruction on the legal use of deadly force, carry issues, traveling with firearms and much more. With the miss rate over 80% in gun battles, we have found traditional shooting methods unacceptable for self defense. Most shooting is in low-light and darkness, as are the vast majority of self defense shootings.

Course Requirements: A handgun, strong side holster and magazine pouch, at least 1 spare magazine or speed loader, a minimum of 250 rounds of ammunition, and eye and ear protection

▪ **Low Light Shooting Principles – 2 Hours \$75**

Did you know that the vast majority of self defense shootings occur in low light or darkness? Do you know how well you shoot in the dark? This course is designed to help you develop the skills necessary to survive a deadly force encounter in the dark and includes several shooting styles with distances from 3 to 21 feet. Only the first shooting string is done with the lights on, to ensure everyone is comfortable with their weapon and everything is functioning well. The remainder of the class is low light and darkness shooting. This course is intended for anyone who has good working knowledge of their handgun. You must be able to load, unload, safely operate your firearm, and clear malfunctions.

Course Requirements: A handgun, at least 1 spare magazine or speed loader, a minimum of 150 rounds of ammunition, and eye and ear protection

▪ **Shotgun Level 1 – 6 Hours \$150**

This course teaches the basic knowledge, skills and attitude for the safe and proper handling of a shotgun. You will spend classroom and range time learning how to properly shoot a shotgun. Students learn rules for safe gun handling, shotgun parts

and operation, shotgun shell components, shotgun shell malfunctions, shooting fundamentals, range rules, shooting at straight away and moving targets, and cleaning your shotgun.

Course Requirements: A shotgun, a minimum of 100 rounds of birdshot ammunition, and eye and ear protection

▪ **Shotgun Level 2 – 8 Hours \$200**

This outstanding course provides students with much more than a fundamental understanding of the tactical shotgun. Topics include the color code of mental awareness, proper use of cover, weapon and ammunition selection, loading and unloading, firing stance, carry positions, kneeling, sitting, target engagement from 7 to 25 yards under time pressure, multiple targets, tactical reloading, select slug drill with firing out to 50 yards, and malfunction clearing. Upon completion of this course, you will have the ability to use your shotgun with a skill level well above the rest of the gun-owning public.

Course Requirements: A shotgun, a minimum of 150 rounds of ammunition (75 rounds of birdshot, 75 rounds of 00 buckshot, 50 rounds of slug ammunition required), and eye and ear protection

▪ **Women Shooters First Shots (Pistol) – 3 Hours \$100**

This is a hands-on introduction to the safe handling and proper orientation to the revolver/semi-automatic pistol. This course is at least three hours long and includes both classroom and range time. Students will learn the rules for safe gun handling, the parts and operation, ammunition, shooting fundamentals and cleaning of the pistol.

Course Requirements: You can bring your own firearm or rent one of ours. Students will shoot 50 rounds of ammunition, and need eye and ear protection

▪ **Women Shooters Defensive Pistol – 8 Hours \$175**

This course picks up where First Shots left off. After a review of safe handling of the pistol, additional information will be presented in the classroom. Students will learn about how to keep from becoming a victim. The effects of stress in a deadly encounter will also be presented as well as how to mitigate these effects. Students will also be introduced to speed/tactical reloading, drawing from the holster, and the proper use of cover and concealment. In addition to shooting fundamentals, students will be exposed to combat shooting techniques.

Course Requirements: You must have completed the **Women Shooters First Shots** class. You will need a semi-automatic handgun of at least 9mm, two magazines, sturdy nylon or leather belt that fits through your belt loops, 150 rounds of factory ammunition, and eye and ear protection

▪ **Carbine Operations – 3 Hours \$150**

This course is designed for the person with little or no knowledge of the Carbine, or the shooter who has never attended any formal training on the Carbine and needs a refresher. This course is also beneficial for the shooter having trouble keeping consistent shots on target and needs to review the basics. Students will be exposed to both classroom instruction and range time. This one-on-one instruction (or maximum of 3 students per instructor) facilitates high information retention for the shooter. This course will cover Carbine knowledge and handling, characteristics of the Carbine, disassembly and maintenance, fundamentals of rifle shooting, zeroing the Carbine, shooting position and malfunctions.

Course Requirements: Semi-automatic, magazine fed, iron-sighted Carbine with a sling and three magazines, 60 rounds of .223 or 5.56 ammunition, and eye and ear protection - NOTE: The Carbine and ammunition can be purchased at the range for the range shooting portion of this course
